

COMPANY OVERVIEW

Humble House, LLC is a Service-Disabled Veteran-Owned Small Business (SDVOSB, pending) specializing in **Contractor Support Services (CSS) and Systems Engineering & Technical Assistance (SETA)** for DoW, USSOCOM, and the Intelligence Community. The firm delivers mission-aligned professional services across the full acquisition lifecycle — from requirements development through contract award and operational fielding. Humble House combines senior-level DoW program management credentials, hands-on SOCOM rapid-fielding experience, and a lean, low-overhead delivery model that gives prime contractors and program offices a trusted, execution-ready teaming partner.

CORE COMPETENCIES

- Contractor Support Services (CSS)
- Systems Engineering & Technical Assistance (SETA)
- Defense Acquisition & Program Mgmt
- ISR & UAS (Group 1–3) Support
- Rapid Capability Development & Fielding
- Requirements Development & SOW/PWS Authoring
- DoD 5000 / SOFCIDS Compliance
- Budget Execution & Cost Estimation
- Scheduling & IMS Management
- Integrated Product Team (IPT) Leadership
- Contract Strategy & Source Selection Support
- Technical Documentation & Congressional Reporting

PAST PERFORMANCE / RELEVANT EXPERIENCE

- USSOCOM PEO-TIS – CSS/SETA support as Acquisition PM, TENCAP / National Systems Support to SOF: \$112M budget managed; 8 R&D projects executed from concept to contract award under DoD 5000 and SOFCIDS
- TENCAP: firm-supported program exploits national capabilities to deliver rapid, cost-dominant warfighting solutions through technology integration, industry/academia partnerships, and SOF urgent operational need prioritization
- USSOCOM PEO-TIS – UAS Program Management support: led 12-person dispersed IPT, \$63M budget, development through sustainment of six Group 1–3 ISR capabilities; coordinated transfer of six systems to U.S. Navy
- Commercial ISR Integration: firm principal led SOCOM's first taskable commercial satellite program — partnered HawkEye 360, SNC, and BlackSky to deliver advanced decision-making tools and tactical ISR capability
- NAVAIR PMA-271 (E-6B / TACAMO) – ACAT I acquisition support: \$356M budget, 21 aircraft modifications, \$1.2B mission system installation; \$33.5M source selection contribution; \$110M Northrop Grumman contract secured
- NSW Quick Reaction Capability: firm developed \$113M acquisition strategy for Naval Special Warfare, enabling SOF forces to counter near-peer and strategic threats
- Acquisition Documentation: SOWs, PWSs, APBs, ADMs, and Congressional Briefs authored — 10 successful contract awards delivered
- Industry Relationships: HawkEye 360, BlackSky, SNC, Lockheed Martin, AeroVironment, Boeing-Insitu, Serco, Draper, Johns Hopkins APL

WHY HUMBLE HOUSE

- ▶ Principal-led delivery — our PM owned the program, not just supported it
- ▶ Firm track record: \$112M TENCAP + \$63M UAS programs at USSOCOM PEO-TIS
- ▶ Pioneered SOCOM's first taskable commercial satellite ISR program
- ▶ 10 contract awards executed under DoD 5000 / SOFCIDS compliance
- ▶ Acquisition strategies built from concept through contract award — 8 R&D efforts
- ▶ Cleared & certified: TS/SCI eligible | DAWIA Program Management Level II
- ▶ ACAT I source selection experience | \$1.2B mission system program management
- ▶ Veteran-owned, low-overhead structure — senior expertise without enterprise cost
- ▶ Operates at the intersection of government offices, industry, and the warfighter
- ▶ Rapid-fielding track record: capabilities delivered directly to SOF operators
